

CURRICULUM VITAE

Position: Statistician and Data Analyst

Name: Datche Dedan

D.O.B: 5th Sep 2003

Email: Datchededan@gmail.com

Contact: +254 708 695058

Address: 00526 – Donholm, Nairobi-Kenya

EDUCATION

2023 – To Date, (Third Year).

Jomo Kenyatta University of Agriculture and Technology - **BSc Statistics** (undergraduate).

2019 – 2022, Homa Bay High School – KCSE (grade B+)

Other Trainings

2025: **Data Science Masterclass (Foundational Level, Independent Study, Alison)**

- ✓ Gained foundational knowledge on data mining techniques, data science methodology, programming language selection, chatbot concepts, and version control using GitHub.

2023 – 2024: **Completed comprehensive training in data analysis and reporting.**

- ✓ Performed data analysis using advanced formulas (SUMIFS, VLOOKUP, INDEX-MATCH etc.), PivotTables and Power Pivot to generate insights and support data-driven decisions.

SKILLS

Technical Skills

Data Cleaning and Modelling:

- Used statistical like Excel and data analysis techniques to clean, structure, and model datasets for accurate reporting and insights.

Data Visualization and Reporting:

- Developed dashboards using Power Bi and Excel integrating DAX-driven metrics and dimensional data models to deliver statistically sound decision making.

ETL Pipeline Development:

- Proficient in performing end-to-end pipelines to extract, transform and load data into structured formats to integrate data ensuring consistency and accuracy.

Query-Based data exploration and integration:

- Skilled in structuring queries to clean data, detect anomalies, and enforce data integrity rules, ensuring accuracy in datasets using Power Pivot and SQL.

Soft Skills

Problem Solving:

- Proficient in deconstructing complex business problems into structured analytical frameworks ensuring precision and actionable insights.

Communication (Data Storytelling):

- Skilled in translating complex analytical findings into clear narratives that drive informed decision making.

Critical Thinking (Insight Validation):

- Skilled in validating insights and outputs through statistical testing, assumption checks to ensure accuracy and reliability of outputs.

Business Acumen:

- Capable of aligning data analysis with business objectives, ensuring insights directly support strategic and operational goals of the business.

Attention to Detail:

- Highly detail-oriented in identifying data inconsistencies, ensuring accuracy and maintaining integrity across analytical processes.

EXPERIENCE

Relevant Projects | Practical Experience | <https://statedge-analytics-portfolio-tuvm.onrender.com>

Business Intelligence, Data Visualization & ETL Development

Designed and developed interactive dashboards using PivotTables, charts, slicers, query and form controls to present key business metrics, including sales trends, product performance, time-based analysis, average basket value, and customer 360 insights. Automated data refresh and preprocessing workflows to improve reporting accuracy, consistency, and efficiency.

REFEREES

Name: Henry Kissinger

Head of Research and Methodology – Lecturer JKUAT
